PROFESSIONAL SUMMARY

Recent Master of Applied Information Technology graduate from Victoria University, with practical frontend development experience gained through an internship in a professional Agile environment. Holds a background spanning web development, machine learning, and IT systems, with the adaptability and eagerness to contribute across a broad range of IT roles. Looking to grow within a team where technical foundations can be applied and expanded in any direction the role requires.

WORK EXPERIENCE

Frontend Developer

N.I.T.V. Nepal Limited | Kathmandu, Nepal *February 2023 – October 2023*

Internship — progressed to Junior Developer

- Developed and maintained web applications using AngularJS, HTML5, CSS3, and JavaScript within an Agile/Scrum development environment.
- Contributed to RPS Remit (rpsremit.co.jp), a live client-facing remittance web application, working on a single-page application with API integration.
- Collaborated with the QA team to identify and resolve defects, maintaining code quality standards across the development lifecycle.
- Participated in code reviews under senior developer mentorship, submitting regular progress reports to the project manager and delivering assigned tasks on schedule.
- Extended from internship to junior developer role based on consistent performance and reliable code delivery.

Technologies: AngularJS, HTML5, CSS3, JavaScript, Web Application Development, Git/Version Control

Machine Learning Intern

Acranton Technologies Private Limited | Bengaluru, India *March 2021 – April 2021*

- Completed an intensive internship focused on machine learning with Python, gaining practical experience developing ML models and algorithms.
- Applied theoretical machine learning concepts to real project scenarios, demonstrating strong initiative and an inquisitive approach to emerging technologies.

Technologies: Python, Machine Learning, Data Analysis

Waitstaff / Server

Goodfields Eatery | Lindfield, Sydney *August 2024 – Present*

- Delivered attentive table service in a fast-paced environment, demonstrating strong communication skills and composure under pressure.
- Resolved customer complaints professionally, maintaining a consistently positive dining experience and high service standards.
- Collaborated with kitchen and bar staff to ensure accurate, timely order delivery, reinforcing cross-functional teamwork and reliability.

Customer Service Associate – Deli

IGA Supamart | Pennant Hills, Sydney *January 2024 – October 2024*

- Assisted customers with product selections and special orders, demonstrating adaptability to diverse customer needs in a busy retail environment.
- Maintained strict food safety and hygiene compliance while managing high-volume preparation and packaging tasks efficiently.

EDUCATION

Master of Applied Information Technology *February 2024 – November 2025*
Victoria University, Sydney Campus

Bachelor of Computer Science and Engineering *2017 – 2021*
Visvesvaraya Technological University (VTU), Belgaum, India

TECHNICAL SKILLS

Frontend Development: AngularJS, HTML5, CSS3, JavaScript

Machine Learning & Data Science: Python, ML Algorithms, Data Analysis

Core Competencies: Web Application Development & Maintenance, Responsive Web Design, Cross-browser Compatibility & Testing, Code Debugging & Troubleshooting, API Integration, SDLC

Version Control: Git, GitHub, GitLab

IDEs & Tools: Visual Studio Code, Jupyter Notebook, Browser DevTools
